

Code Submission

Please follow the instructions given on the portal in order to upload your code. You will make below folders inside **Code Submission** folder:

Code Submission folder Structure:

1. Embedded C:

Please put your Embedded C codes inside this folder. Make sure your code is well documented and commented according to the rules and format provided on the portal.

2. Arduino:

Please put your Arduino codes inside this folder. Make sure your code is well documented and commented according to the rules and format provided on the portal.

3. Blender file:

Please put your .blend file inside this folder. Make sure your code is well documented and commented according to the rules and format provided on the portal.

Name your final .blend code file “**task4-main.blend**” and put it in this folder.

Uploading Code on Portal:

- Please rename your Code Submission folder as: eYRC#TB#<Team ID>_Code
(For example: If your team ID is 25 then, save it as eYRC#TB#25_Code)
- Upload the zipped format of this folder according to the instructions provided on the portal on the given link:
URL: https://docs.google.com/forms/d/e/1FAIpQLSccxDM-zZbZrR-yo-13xd4NN3ZSjZ3T19i8gFytqTvqLQWY2w/viewform?usp=pp_url&entry.975704671
- Create a Read Me file containing the details of folders inside Code Submission folder. Upload the zipped format of this Read Me file according to the instructions provided on the portal.
