e-Yantra Robotics Competition (eYRC - 2017)
Task 0 – Transporter Bot

Blender is free and open source platform for 3D modeling, animation and gaming. Once the software installation is finished, watch the following video tutorials:

1. **Blender Interface**
2. **Blender Interface Mouse Inputs**
3. **Numpad Preference**
4. **Numpad Shortcuts**

Follow the instructions given in each of the following videos and practice those in Blender.

1. **Blender Interface**: covers the introduction to Blender GUI and different types of windows in Blender.
Video URL: https://www.youtube.com/watch?time_continue=442&v=Y0mrCg2qjmc

2. **Blender Interface Mouse Inputs**: mouse inputs, concept of 3D cursor and keyboard shortcuts are explained in this video.
Video URL: https://www.youtube.com/watch?time_continue=113&v=Xffgscp8ymM

3. **Numpad Preference**: covers Numpad preferences setup and various Numpad shortcuts.
Video URL: https://www.youtube.com/watch?time_continue=193&v=0qiDhjaL6PU

4. **Numpad Shortcuts**: different Numpad shortcuts applicable for 3D view window are shown in this video.
